

Volunteering Title: Online Promotion & Social Media

About Role: Ageing Well spends a lot of time out in the community, running valuable programming for older, isolated people in Lewisham. What it doesn't have much time to do is promote itself! We are looking for someone to help us get our message and news out more efficiently, via email newsletters, twitter, facebook and via our website. Setting up procedures might take a few hours to begin with, but after that one or two hours per week would really help us keep up.

Key Activities: Setting up procedure for online promotion, via e-newsletter, social media and the website. Making updates via these procedures on a weekly basis.

Person Specification: You will need to have Social media promotion and website skills.

Time Commitment: Flexible – this volunteering role can be done either remotely or based our Catford Offices.
