

We have all been impacted by coronavirus. Circumstances have changed for so many of us one way or another including financially. You might not be struggling to pay your food bills, but aren't quite so confident you'll manage the rent, mortgage or energy payment at the end of the month.

With half of us being furloughed, working from home, being on reduced wages or some of us having even lost our jobs, we all still have mortgages, rent, utilities and food bills.

### **This is where we can offer a helping hand.**

We want to alleviate at least some of the worries people are experiencing by offering food to local people at a heavily subsidised cost.

### **What will be available?**

You will usually find fresh fruit, vegetables, bread and dairy, as well as dried and tinned goods. What is on offer will change each week.

We source food from wholesalers, surplus food distributors and supermarkets, and have fundraised locally to provide this service.

### **This is a helping hand – please use it.**

### **How do I sign up?**

Please visit during our opening times, or ring us.

All you need to do is tell us your name, address and how many people are in your household. Please bring this letter with you.

If you can make a donation towards the groceries we suggest £2 per visit. Please note, there is no obligation to do so.

Feed the Hill
